RAS series  
 refined elegance

KRION® BATH  
 PORCELANOSA SOLID SURFACE

# RAS series

Architects and interior designers are moving increasingly toward bathrooms that combine a strong visual appeal with hygiene and top-quality materials.

RAS is a bathroom series with a minimalist contemporary design, made up of countertops, washbasins, bathroom units, shelves and shower trays made of KRION™.

The latest washbasins and bathroom units share the same clear-cut straight lines as the rest of the collection, while its KRION™ countertops and washbasins stand out for their clean design, thanks to the incorporation of a concealed drain and drain cover made of the same material.

As for the complementary bathroom units, they come in a wide variety of designs and dimensions to suit all kinds of bathrooms. In short, functionality has been integrated with the refined elegance of the RAS collection, aimed at the creation of user-friendly bathrooms with a strong contemporary appeal.
